Solar Lighting

Stylish, energy-efficient illumination

Solar Lighting

ALWAYS RIGHT ON THE MARK.

Waymark solar lighting is an energy-efficient, easy way to add extra illumination to your fence or railing. But it does more than simply shed light on a project. Our solar glass post caps and solar metal post caps can add an intimate glow and a dramatic accent. Use post accessories such as our side mount solar light to illuminate a rail or fence post, and create a truly unique look. Our solar lighting products require no electricity or wiring. They're available in a wide array of popular designs for use with four-inch and five-inch posts, and they're remarkably easy to install.

4" Side Mount Solar Light

WE HAVE SOME VERY BRIGHT IDEAS.

With Waymark solar lighting, you get a level of innovation you simply can't find anywhere else. We've developed more efficient solar circuitry, so the lights remain illuminated longer. Our improved dual-LED bulbs mean they're also brighter—for greater illumination and a stronger accent. An angled reflector below the bulbs directs more light through the lens. And dual batteries boost energy storage capacity and illumination time.

Waymark solar lights are also aesthetically pleasing and easy to maintain. Our exclusive beveled-glass lenses give them a clean, stylish appearance both day and night. And battery replacement is simple—there's no need to remove the lights from the posts.

WE GIVE YOU ALL THE CHOICES YOU NEED.

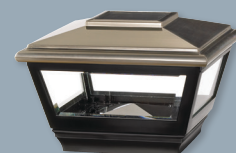

Waymark solar lights offer a range of ways to light up or dress up a project. Whether you're accenting posts or throwing extra light on stairs or railings, you can choose from a variety of styles; all are available in white or black frames.* Plus we offer matching Stylepoint post caps for posts that don't require lights.

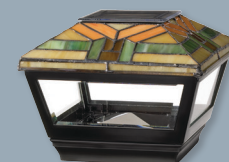

5" Harbor Solar Light

Our vast selection of products, combined with our innovative styling and unrivaled quality and durability, make Waymark solar lighting the industry's finest. Once you work with Waymark products, you'll see. We're always right on the mark.

*Our unique Harbor light, available in two sizes to fit four- and five-inch posts, offers all of the same performance advantages, but is available in white only.
